

Open Position: XML Engineer - Full Time

Description

We are seeking a highly motivated individual with diverse technical skills, especially those involving XML technologies. Strong analytical skills are a must. The applicant must have a strong desire to learn, and willingness to apply his or her technical expertise to help support existing XML solutions and to help develop new solutions.

This position involves maintaining and supporting existing XML implementations for our clients, as well as providing enhancements and helping to develop new implementations. Candidates should have a good understanding of XSLT and related technologies.

Candidates should have a Bachelor's degree, ideally in a technical field such as Information Technology, Computer Science or a related field. Candidates must have very strong technical abilities, and must be able to learn new technologies rapidly.

Required Knowledge

- XML technologies: XML, XPath, XSLT, DTD, XML Schema
- Regular expressions
